

## MELAMINE – *Information Note*

Products :	All
Manufacturing locations :	Roquette European production plants

### **REGULATION 594/2012/EC of European Commission.**

Roquette produces and sells worldwide products deriving from cereals (wheat and maize), potato and pea, based on starch manufacturing technology.

Roquette is committed to deliver only high quality products. Through our Quality Management System in place, which includes suppliers' audits, qualification of raw materials, traceability of processes and products, analytical quality controls in accredited labs, we guarantee that our products comply with the following limits:

For Food: 2.5 ppm  
For Baby Food: 1 ppm  
For Feed: 2.5 ppm  
For Pharmaceutical ingredients: 2.5 ppm

Sufficient assurance is given by the systems in place to avoid any undue and costly melamine analysis on our products.

Application date: February 2019
