

Functional Solutions for Oncology Pharmaceuticals

BASF

We create chemistry

In 2018, 17 million new cancer cases were diagnosed worldwide.¹ This number is expected to grow to 27.5 million new cases globally by 2040.¹ For many, cancer will mean years of treatments and follow-up appointments, at a tremendous physical, emotional, and financial toll. At BASF Pharma Solutions, we provide ingredients to enable quality treatments and care. We believe in inspiring medicines for better lives because good health is essential for a life of prosperity, growth, and fulfillment.

Building a sustainable future together

BASF creates chemistry for a sustainable future by offering intelligent solutions to the pharmaceutical industry. Our high-quality, industry-leading products enable you to formulate pharmaceuticals that achieve desirable target parameters.

Use BASF's vast portfolio of functional excipients to resolve oral, topical, and parenteral oncology formulation challenges.

Our commitment to you

We know that innovation, speed-to-market, and cost-effectiveness are essential to pharmaceutical companies. Committed to delivering on all three accounts, we use our expertise across the entire pharmaceutical value chain to drive the development and launch of various dosage forms.

Join us to inspire medicines for better lives.
