

2017 Gattefossé Award for Excellence in Research and Development with Lipid-based Excipients

Gattefossé North America is sponsoring an annual award to recognize scientific excellence and significant contributions to the field of lipid-based excipients and/or formulations.

The winner of this award will be presented with \$10,000, a commemoration plaque, travel expenses (\$1,500 domestic/\$2,000 international), and acknowledgment at a Gattefossé sponsored event held in San Diego on Monday, November 13, 2017.

In the absence of eligible submissions, Gattefossé reserves the right to withdraw the award and/or to apply it to future years.

Applicants are urged to review the eligibility criteria provided in this document and to contact Louise Guarino at LGuarino@gattefossecorp.com with any questions.

Eligibility and Guidelines

To be eligible, applicants must successfully complete and submit the documents listed below by July 30, 2017.

Required documents for submission:

1. Application (Page 4)
2. Summary (No more than 4 pages, 12 pt. font)
 - a. Title of research
 - b. Objectives of the work
 - c. Brief description of the methods describing the scientific principle(s) applied to elucidate the findings
 - d. Summary of the results illustrated by tables, graphs, images, and/or bulleted text
 - e. Conclusion highlighting the significance of the findings and if and how they could impact the future application of the science technology being researched
3. Curriculum vitae
4. Two letters of recommendation
 - a. Please highlight the applicant's scientific work, including impact of the research efforts toward lipid-based drug delivery systems

In addition to the documents listed above, the awardee must be willing to attend the 2017 Gattefossé North American Dinner to be held in San Diego on Monday, November 13, 2017.

The Awards Selection Committee will evaluate and rank submissions based on the following criteria and point values:

Compliance with award rules and format	10 points
Applicant background, letters of recommendation	10 points
Relevance of the work to current needs	20 points
Scientific excellence and innovation	30 points
Work's potential impact on accelerating drug development	30 points

Awards Committee

The 2017 Gattefossé North America Awards Committee will consist of a five-member panel of scientists with proven expertise in the field of Lipid Based Drug Delivery. The panel members will be selected from a pool of volunteers listed below:

Jeff Browne, Catalent USA

Panos Constantinides, BBDS

Inayet Ellis, Gattefossé USA

Robert Garmise, Bristol-Myers Squibb

Irwin Jacobs, Irwin Consulting

Vincent Jannin, Gattefossé SAS

Jason LePree, Gattefossé USA

Anette Müllertz, University of Copenhagen

Narasimha Murthy, University of Mississippi

Sami Nazzal, University of Louisiana at Monroe

Christopher Porter, Monash University

Kaspar van den Dries, Patheon Netherlands

Hywel Williams, Capsugel

Conflict of interest: In the event that a person on the committee is in the running or his/her student applies for the award, we would not involve the committee member in the review process.

Application

ALL APPLICATIONS MUST BE RECEIVED BY JULY 30, 2017

Nominee Information

First Name _____ Last Name _____

Organization/Institution _____

Address _____ City _____

State _____ Postal Code _____ Country _____

Email _____ Phone _____

Date _____

Please submit other required documents as a single PDF attached to the email linked to the submit button below.
